

## IEC Switchgear

**Locally manufactured in Beaumont, Texas facility  
For the Oil & Gas Drilling, Production and Marine Industry**

**Medium Voltage Switchboards** - Through 17.5 kV, 3000 A  
Designed and manufactured to meet the latest version of IEC 298 with Appendix AA arc resistant option.

- Interlocking and externally operated earthing switches for circuit breakers and motor starters
- Arc flaps at the top of the housing allowing gases to escape and thus limit pressure rise to a withstandable level
- Circuit Breaker compartments contain automatically operated shutters for bus bar and feeder circuits
- Horizontally withdrawable carriages for single tier switchgear and cradles for double tier switchgear and motor starters
- Potential transformers are available in either fixed or isolatable version, circuit or bus bar connected, with fixed or removable links on High voltage fuses.

**High Voltage Switchgear**

**Low Voltage Switchgear**

**Low Voltage Switchboards**  
Through 6000VAC, 6300A  
Designed to meet the latest IEC standards

- ASTA Certified 50 and 80 kA Ratings
