

New Space Efficient Design

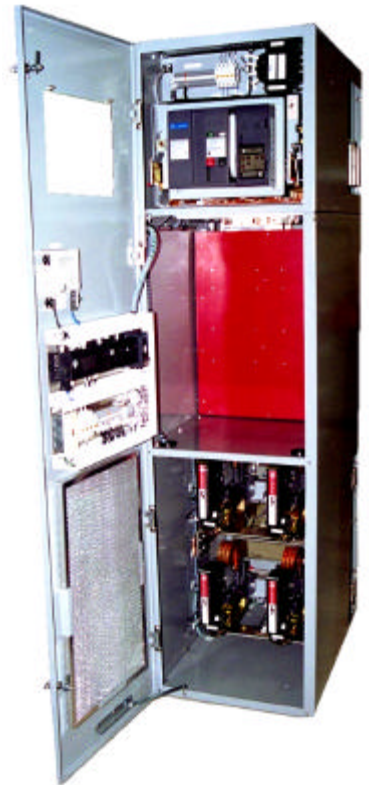

SCR Drive System

for the Land & Offshore Drilling, Production, & Marine Industry

Capacity to 2200 HP
24" Wide— 36" Deep

- **Advanced Microprocessor Technology**
 - Programmable regulator
 - LCD operator's panel, alphanumeric
 - Detail fault diagnostic display
 - Serial ports provide communication with PLC's, other drives, & computers
 - On line help screen
- **Redundant PLC Controls & Communications**
 - Connectability to various operator interfaces including touch screen
 - Direct connection to remote diagnostic and display programs via hardwire or telephone modem
 - Reduces cable required for lower rig up and maintenance cost
- **Four Quadrant SCR Bridge**
 - Regenerative braking
 - Electronic armature reversing
 - System utilizes fewer components which lowers maintenance cost
 - Automatic field weakening with tachometer
- **Safe & Quiet System Operation**
 - Unique reverse pitch fan design
 - Full height barriers inside metering compartment
 - Local control
 - Password Protection

Designed to meet
IEEE, ABS, USCG,
SOLAS & DNV

6410 Long Drive
Houston, TX 77087
